### **Wealth Wikipedia**

Adam Smith, in his seminal work *The Wealth of Nations*, described wealth as the annual produce of the land and labour of the society. This produce is, at its simplest, that which satisfies human needs and wants of utility. In popular usage, wealth can be described as an abundance of items of economic value, or the state of controlling or possessing such items, usually in the form of money ...

## **Surplus Product Wikipedia**

Surplus product (German: Mehrprodukt) is an economic concept explicitly theorised by Karl Marx in his critique of political economy. Marx first began to work out his idea of surplus product in his 1844 notes on James Mill's Elements of political economy.. Notions of surplus produce have been used in economic thought and commerce for a long time (notably by the Physiocrats), but in Das Kapital ...
